# Message From the Chairperson

**Ms Mamu Hage, IAS**  
Collector North Goa & Chairperson, NGDMF

As the District Collector of North Goa and Chairperson of the North Goa District Mineral Foundation Trust (NGDMFT), I am pleased to present this annual report for 2022–2023 highlighting our accomplishments over the past year. Our mission to improve the quality of life for our residents has seen significant progress. Key initiatives have spanned infrastructure, healthcare, education, and sanitation.

In the Education sector, we have provided transportation facilities to Government Schools, ensuring the timely arrival of students and enhancing their learning. Our commitment to education is reflected in redesigning school models by setting up of Smart classrooms by installing Smart Boards for 36 Schools, creating better learning environment and offering skill-building opportunities.

We have supplied fire and emergency vehicles and equipment to improve fire safety and strengthen our ability to respond to incidents. Additionally, augmentation of water in Pale was carried out for providing a surplus drinking water supply.

Transparency and community participation have been central to our approach, with efficient fund utilization, gap assessments and project monitoring, ensuring effective resource use and tangible benefits for our communities.

I thank my colleagues in the Managing Committee and Governing Council for their suggestions and unwavering support. I also want to express my appreciation for the DMG staff and the PMU. Together, we are committed to fostering sustainable development and enhancing the well-being of North Goa's mining-affected communities.

# Message From the Member Secretary

**Mrs Roshell Fernandes,**  
Deputy Director-I, Mines/ Member Secretary, NGDMF

**As the Member Secretary, I am pleased to share the success of the North Goa District Mineral Foundation Trust (NGDMFT) in enhancing facilities for mining-affected areas and various departments. Our efforts have significantly improved healthcare, education, and social welfare. We have provided ambulances for better medical assistance, renovated schools and supplied Disaster Management vehicles and also an ambulance for CHC, Bicholim.**

**A highlight of our initiatives is the skill development project for women SHGs, GoVan, focused on processing forest produce and establishing multipurpose centers. This ongoing project empowers women, fostering economic independence and sustainable livelihoods.**

**Additionally, we have sanctioned a social welfare project to provide motorized tricycles for disabled individuals, improving their mobility and quality of life.**

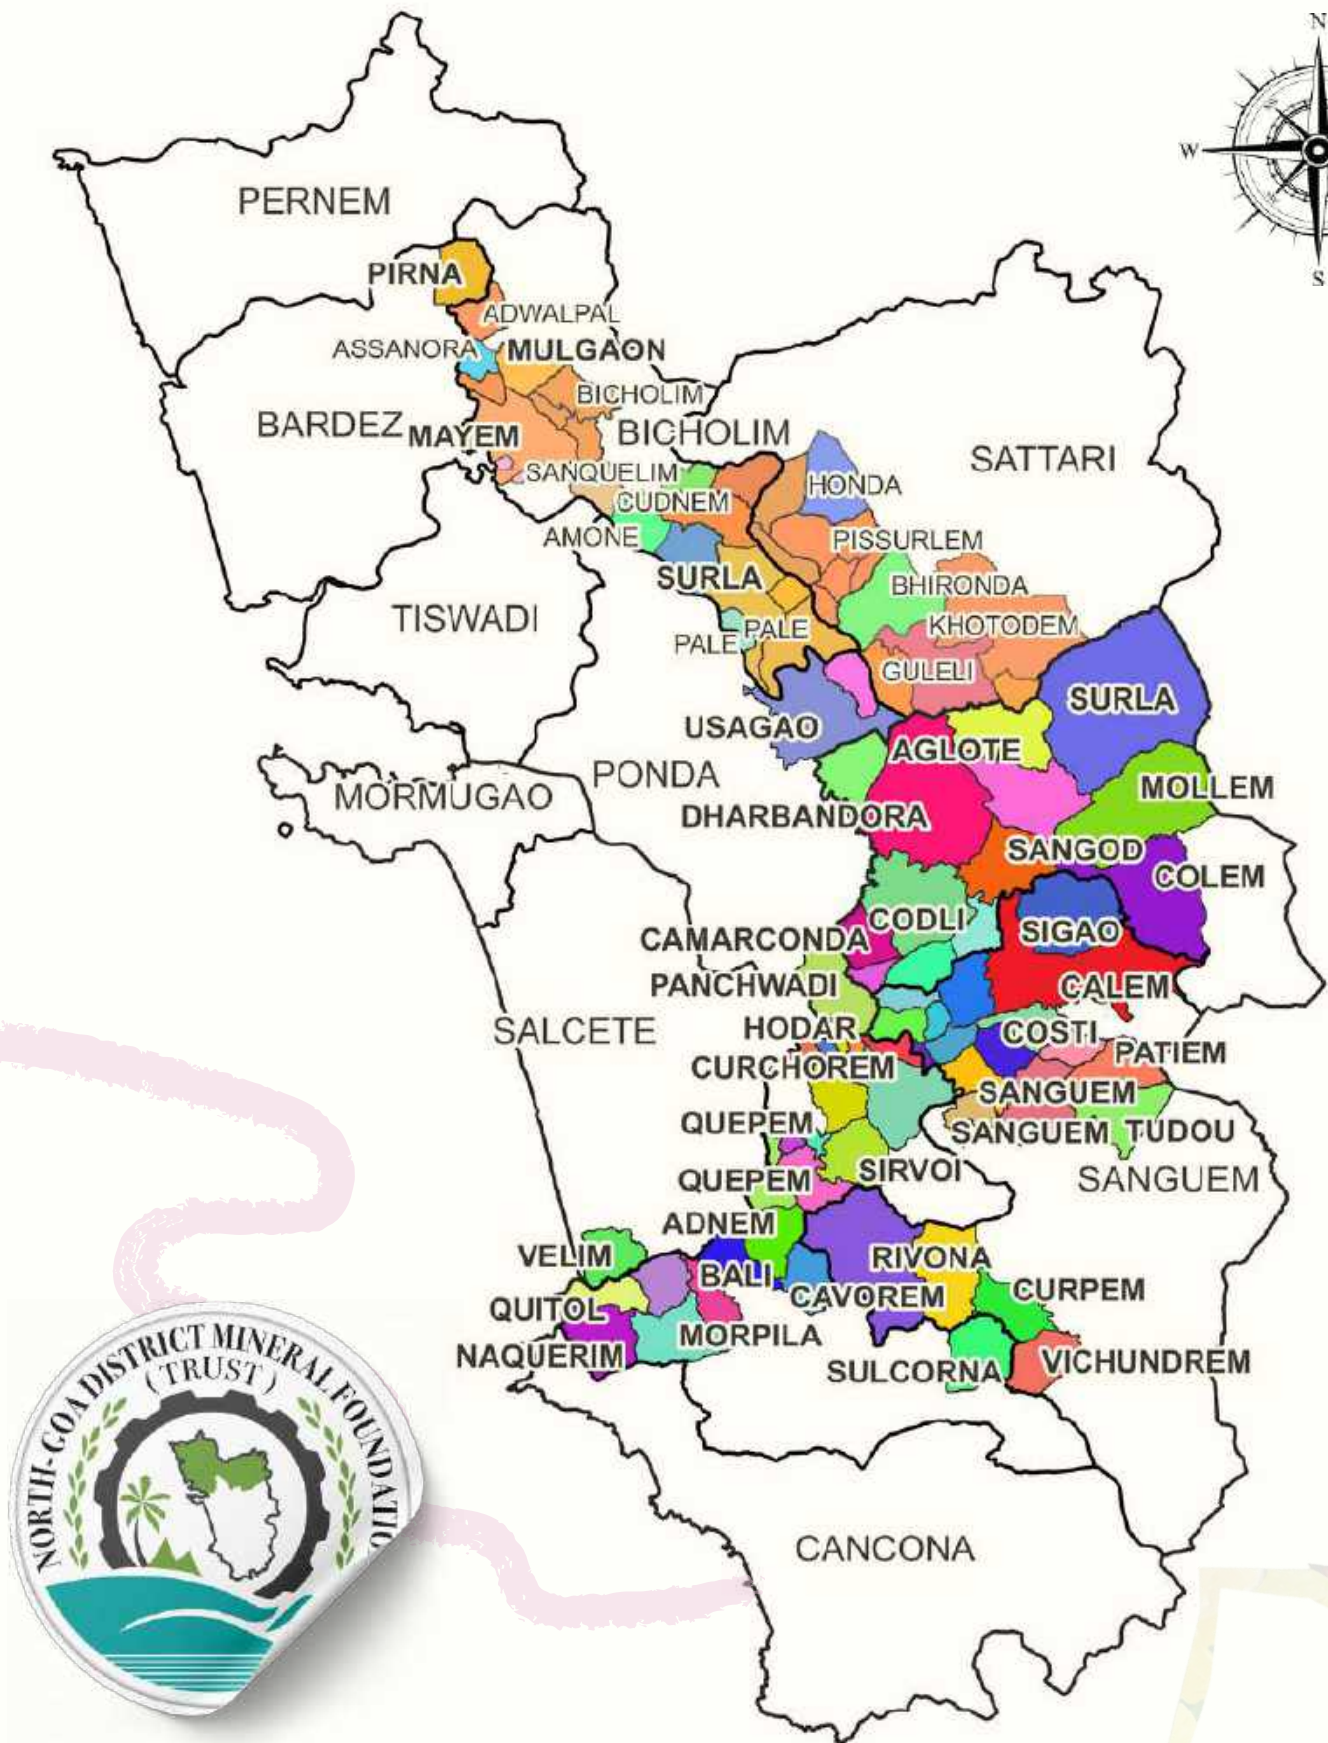

**Transparency and community participation are central to our approach, ensuring effective resource utilization and tangible benefits for our communities. The unwavering support of our stakeholders and the dedication of the DMG & DMFT team have been crucial in driving this progress. Together, we are committed to fostering sustainable development and enhancing the well-being of North Goa's mining-affected communities.**

# About DME Trust

"Students of Honda Sonshi Soilenm posing in front of the Kadamba Bus. Transport sponsored by the North Goa District Mineral Foundation Trust through KTCL"

# What is District Mineral Foundation

In India, the Mining industry is regulated under the Mines and Minerals Development and Regulation (MMDR) Act, 1957. Further in the year 2015 MMDR Act was amended, bringing into effect the changes in the regulations governing the mining area. The Amended Act introduced Section 9B which mandates the State Government for setting up of District Mineral Foundation (DMF) in every district affected by the mining related operations for the benefit of communities affected by such operations.

Mining-affected communities have faced various issues related to livelihood, socio-economic, health, drinking water etc. Realization of the same led to the creation of DMF as part of benefit sharing and inclusive growth. DMF works in the interest and benefits of the persons and areas affected by mining-related activities. As per the Act, mining companies have been notified to deposit payments to DMFs. The rules for functions, accountability, transparency etc. of DMFs are within the purview of state governments as per the guidelines of PMKKKY.

Accordingly, the state of Goa has notified Goa DMF (Trust) Rules 2018, vide notification no. DMG/MMDR/DMF/01/2015/7633- dated 08 January 2019. As per the rules, DMFs are to work for the socio-economic development of areas and communities affected by mining operations by carrying out various projects to address issues related to Education, Healthcare, livelihood, skill development etc.

*"Development is not just about building structures. it's about empowering people, fostering innovation, and creating opportunities that lead to a brighter, more sustainable future for everyone."*

# PMKKKY

## Pradhan Mantri Khanij Kalyan Kshetra Yojana

### Introduction to District Mineral Foundation (DMF) and PMKKKY

The Mines & Minerals (Development & Regulation) Act, 1957, was amended in 2015 to introduce a new section, 9B, which mandated the establishment of District Mineral Foundations (DMFs) in districts affected by mining operations. The primary objective of DMFs is to work for the welfare and development of people and areas impacted by mining activities, as prescribed by the respective State Governments. Funded by statutory contributions from mining lease holders, DMFs play a crucial role in ensuring that the benefits of mining extend to those directly and indirectly affected by these operations. In September 2015, the Central Government introduced the Pradhan Mantri Khanij Kshetra Kalyan Yojana (PMKKKY), a scheme to be implemented by DMFs. The PMKKKY aims to mitigate the adverse impacts of mining and ensure long-term sustainable livelihoods for affected communities.

### Objectives and Guidelines of PMKKKY

The PMKKKY is implemented by DMFs using funds generated from mining activities, with three main objectives. Firstly, it aims to implement various developmental and welfare projects in mining-affected areas, complementing existing State and Central Government schemes. Secondly, it seeks to minimize the negative impacts of mining on the environment, health, and socio-economic conditions of the people in these areas. Lastly, the scheme ensures sustainable livelihoods for those affected by mining. The MMDR Amendment Act, 2021, empowered the Central Government to issue directions regarding the composition and utilization of DMF funds. These include orders to include MPs, MLAs, and MLCs in the DMF Governing Council, prohibit the transfer of DMF funds to state-level funds or other non-DMF schemes, and mandate the preparation of a five-year Perspective Plan for the systematic development of mining-affected areas.

## Identification of Affected Areas and People

Identifying affected areas and people under the PMKKKY is a critical aspect of its implementation. Affected areas are classified as directly or indirectly affected. Directly affected areas include villages or urban localities where mining operations are active and where communities depend on mining in these areas for their livelihoods. Indirectly affected areas are those where local populations suffer from the economic, social, and environmental consequences of mining activities, even if they are not in close proximity to the mining sites. The DMF is responsible for maintaining an updated list of these areas. Similarly, affected people include those who have legal or occupational rights over mined land, those with traditional usufruct rights, and individuals whose livelihoods have been disrupted by mining. The identification process involves consultation with local elected representatives to ensure accuracy and inclusivity.

### General Guidelines for Effective Implementation

The implementation of PMKKKY is guided by several key principles to maximize its effectiveness. The scheme encourages convergence with existing State and Central Government programs to avoid duplication and ensure that DMF funds complement ongoing development efforts. Administrative and supervisory costs are capped at 5% of the annual DMF receipts, with the establishment of a Project Management Unit (PMU) recommended for districts with annual collections exceeding ₹50 crores. This PMU is essential for planning, technical, accounting, and monitoring support. Additionally, DMFs are advised to maintain an endowment fund, not exceeding 10% of annual receipts, to support sustainable livelihoods in areas where mining activities have ceased. For mines that impact areas across multiple districts, the DMF must allocate funds proportionately to ensure that all affected regions benefit from the scheme. Overall, these guidelines aim to ensure the DMF funds are utilized efficiently and effectively to achieve the long-term goals of sustainable development and community welfare in mining-affected regions.

# Formation of District Mineral Foundation

**District Mineral Foundation (DMF) was established in the State for both the Districts, North Goa and South Goa by Government of Goa through notification no.**

**DMG/MMDR/DMF/01/2015/**

**under the 'MMDR' Amendment Act, 2015, on 30th April 2015 by the Directorate of Mines and Geology. Also, the Directorate of Mines and Geology through its notification no. DMG/MMDR/DMF/01/2015/7633- (Dated: 08 January 2019), framed the rules for regulating the manner of working and functioning of the DMFs in Goa with the help of the PMKKKY Scheme launched in 2015. The District Mineral Foundations was setup with objective of working for the benefit and interest of the persons and areas affected by the mining related operations.**

Photo: GHS Vantem students during a lecture presented on their new smart board funded by NGDMF

# Project Management Unit

## Formation and Role of Project Management Unit (PMU)

To enhance the capacity of DMFs and ensure the effective utilization of DMF funds, the formation of a Project Management Unit (PMU) is strongly recommended. The PMU serves as a dedicated body that provides planning, technical, accounting, and monitoring support to the DMF, ensuring that projects are executed efficiently and transparently. The PMU may engage qualified personnel on a contractual basis, focusing on specific project needs under the PMKKKY. The establishment of a PMU is intended to streamline the implementation of development projects, allowing for better coordination and oversight. It also helps in aligning the DMF's initiatives with broader state and Sustainable Development Goals.

**In May 2021, Mineral Foundation of Goa was appointed as the Project Management Unit for the District Mineral Foundation (Trust), North Goa/South Goa.**

**The Project Management Unit was appointed to work closely with the DMF, line departments and stakeholders; to identify projects benefiting the local communities, scrutinize proposals for their benefit and sustainability, inter-departmental working and communication, monitoring of execution, data handling and report preparation.**

## Transportation through KTCL for Sonshi & Honda

To facilitate safe and timely travel for students, the North Goa District Mineral Foundation (NGDMF) sanctioned the Services of Kadamba Transport Corporation Limited (KTCL) for schools in Honda and Sonshi. The initiative aimed to ensure reliable and efficient transportation, minimizing student absenteeism and delays.

The buses operate on specific, curated routes designed in consultation with the schools of Honda and Sonshi to cater to the commuting needs of students.

On May 7, 2019, the Governing Council of North Goa DMF officially sanctioned the provision of these buses, approving a budget of **₹76,17,403** for the initiative. Since their deployment, the buses have remained operational, serving as a crucial mode of transport for schoolchildren, ensuring their timely arrival, safety, and convenience. This initiative has significantly benefited students by reducing travel difficulties and supporting better access to education in the region.

## Sector - Welfare of aged and disabled

DMF worked towards providing a better life for the specially abled children, such as sponsoring cochlear implants for two students with hearing disabilities.

adventure

"On behalf of my Parents, Thank you, DMF, for giving me the gift of hearing. I can now listen to my mom's voice, my friends' laughter, and my favorite songs. You made my world so much brighter and happier. I promise to use this blessing wisely and make you proud. Thank you for changing my life!"

*Aryash Khajankar*

Sarvodaya High School, Usgao- Goa

## Sector - Any Other measures for Enhancing Environmental Quality

DMF works towards the safety of the local stakeholders, thus providing emergency response units for Mining affected areas.

**Budget ₹1,72,31,259/-**

A Proposal was received from the Fire and Emergency Department for procurement of disaster management equipment considering frequent incidents of flooding in the mining affected areas especially during monsoon season. In terms of the proposal District Mineral Foundation (Trust), North Goa sanctioned purchase of 02 Nos. of quick response vehicle along with chassis and equipment viz 3KVA Petrol driven generator – 01 No. Electrically operated chain saw – 02 Nos. Petrol driven saw – 02 Nos. & ATEX approved handheld torch – 02 Nos. for Fire & Emergency department and which were then placed at 3 different sites in mining affected areas.

The said equipment has ensured a quick response from the rescue teams posted in the mining-affected areas of Bicholim, Mapusa and Valpoi.

**Quick  
response  
vehicle**

**Procured by NG-DMF for Bicholim Fire Station, Mapusa Fire Station, Valpoi Fire Station**

*Life saving Boat with attachment to the Quick response vehicle, procured in Aid of Mining affected zones of North Goa after the Cyclone Tauktae*

# Sector - Drinking Water

Augmentation of water supply to Velguem, Surla and Pale

Budget ₹9,97,12,215/-

## Floating Pontoon

A floating pontoon and water pump is installed on the river Mandovi, near the Mhadai River New Dam with Submersible pumps.

## Pump House

This water will be supplied to Marutigad pale and the filtration tanks. This water is beneficial to the whole Pale, Velguem and Surla Village People.

## Filtration Tanks

Five filtration tanks are installed at the hill of Marutigad, Pale village with full capacity purification from where the water is supplied to the whole Pale, Velguem and Surla Village Households.
